Subject Index

Abscess
A spring-coil tipped cannula for anchoring cystic lesions during stereotactic aspiration. Technical note, 294
Subdural empyema of the cervical spine: clinicopathological correlates and magnetic resonance imaging. Report of three cases, 929
Acetazolamide
Increased stroke risk predicted by compromised cerebral blood flow reactivity, 483
Acoustic neurinoma
Delayed hearing loss after acoustic neurinoma removal. Letters, 155
Acoustic neuroma
Intracanalicular acoustic neuroma: early surgery for preservation of hearing, 515
Acquired immune deficiency syndrome
Spinal epidural leiomyoma occurring in an HIV-infected man. Case report, 442
Acromegaly
Results of surgical treatment for growth hormone-secreting pituitary adenomas, 70
Adenoma
Results of surgical treatment for growth hormone-secreting pituitary adenomas, 70
Thyrotropin-producing pituitary adenomas, 521
Adenosine
Attenuation of potassium cyanide-mediated neuronal cell death by adenosine, 111
American Association of Neurological Surgeons
The yin and yang of neurological surgery. The 1993 AANS presidential address, 807
Amino acid
Excitatory amino acids in cerebrospinal fluid following traumatic brain injury in humans, 369
Aminosteroid
A comparison of the protective effect of dexamethasone to other potential prophylactic agents in a neonatal rat model of cerebral hypoxia-ischemia, 414
Limiting ischemic spinal cord injury using a free radical scavenger 21-aminosteroid and/or cerebrospinal fluid drainage, 742
Anaplastic transformation
Increased mitotic activity as a negative prognostic indicator in pleomorphic xanthoastrocytoma. Case report, 761
Anastomosis, nerve
Centrocentral anastomosis of the proximal nerve stump in the treatment of painful amputation neuromas of major nerves, 331
Anastomosis, vascular
Cervical-to-petrous internal carotid artery bypass procedure. Technical note, 138
Anatomical study
Microsurgical anatomy of the hippocampal arteries, 256
Androgen
Androgen and progesterone receptors in meningiomas. Letters, 635
Anesthesia
Effect of pentobarbital on normal brain protection and on the response of 9L rat brain tumor to radiation therapy, 577
Aneurysm, *see also* various types
Birth trauma and intracranial aneurysm. Letters, 964
Carotid artery revascularization following Crutchfield clamp placement. Report of two cases, 779
A clinical study of the relationship of timing to outcome of surgery for ruptured cerebral aneurysms. A retrospective analysis of 1622 cases, 373
Endovascular treatment of the acutely ruptured intracranial aneurysm. Guest editorial, 1
The petrosal approach with hearing preservation, 508
Primary (granulomatous) angiitis of the central nervous system with multiple aneurysms of spinal arteries. Case report, 603
Role of angiography following aneurysm surgery, 826
Selective endovascular treatment of 71 intracranial aneurysms with platinum coils, 3
Spontaneous thrombosis of posterior cerebral artery aneurysm with angiographic reappearance. Case report, 434
Supraclinoid internal carotid artery fenestration with an associated aneurysm. Case report, 438
Surgery for angiographically occult cerebral aneurysms, 674
Unruptured aneurysms: Should all be obliterated at once? Letters, 308
Aneurysm, dissecting
Endovascular treatment of vertebral artery dissections and pseudoaneurysms, 183
Aneurysm, giant
Deliberate basilar or vertebral artery occlusion in the treatment of intracranial aneurysms. Immediate results and long-term outcome in 201 patients, 161
Angiitis
Primary (granulomatous) angiitis of the central nervous system with multiple aneurysms of spinal arteries. Case report, 603
Angiography
Angiographic demonstration of a spinal epidural arteriovenous malformation. Case report, 119
Magnetic resonance angiography: a three-dimensional database for assessing arteriovenous malformations. Technical note, 289
Role of angiography following aneurysm surgery, 826
Surgery for angiographically occult cerebral aneurysms, 674
Anomaly
Cervical cord compression by the anomalous vertebral artery presenting with neuralgic pain. Case report, 283
Anterior choroidal artery
Microsurgical anatomy of the hippocampal arteries, 256
Anterior fossa
Supraorbital craniotomy by fracture of the anterior orbital roof. Technical note, 615
Arnold-Chiari malformation
Spontaneous drainage of syringomyelia. Report of two cases, 132
Arterial occlusion
Deliberate basilar or vertebral artery occlusion in the treatment of intracranial aneurysms. Immediate results and long-term outcome in 201 patients, 161
Arteriovenous fistula
Arteriovenous fistulas of the brain and the spinal cord, 16
Grading venous restrictive disease in patients with dural arteriovenous fistulas of the transverse/sigmoid sinus, 11
Intracranial vertebral arteriovenous fistula. Case report, 589
True anatomical compartmentalization of the cavernous sinus in a patient with bilateral cavernous dural arteriovenous fistulae. Case report, 592
Arteriovenous malformation, *see also* Arteriovenous fistula
Angiographic demonstration of a spinal epidural arteriovenous malformation. Case report, 119
Evaluation of pressure changes in feeding arteries during em-

bolization of intracerebral arteriovenous malformations, 383
Magnetic resonance angiography: a three-dimensional database for assessing arteriovenous malformations. Technical note, 289
Magnetoencephalographic localization of a language processing cortical area adjacent to a cerebral arteriovenous malformation. Case report, 584
Microsurgery and radiosurgery in brain arteriovenous malformations. Guest editorial, 647
Microsurgery and radiosurgery in small AVM's. Letter, 795
Microsurgery for 67 intracranial arteriovenous malformations less than 3 cm in diameter, 653
Aspiration
Aspiration of colloid cyst. Letters, 965
Astrocytoma
Correlation of glucose consumption and tumor cell density in astrocytomas. A stereotactic PET study, 853
Unreliability of contemporary neurodiagnostic imaging in evaluating suspected adult supratentorial (low-grade) astrocytoma, 533
Atlantoaxial dislocation
Occipital-axis posterior wiring and fusion for atlantoaxial dislocation associated with occipitalization of the atlas. Technical note, 142
Atlas
Atlas hypoplasia as a cause of high cervical myelopathy. Case report, 917
Occipital-axis posterior wiring and fusion for atlantoaxial dislocation associated with occipitalization of the atlas. Technical note, 142
Posterior atlantoaxial facet screw fixation, 234
Axis
Occipital-axis posterior wiring and fusion for atlantoaxial dislocation associated with occipitalization of the atlas. Technical note, 142
Posterior atlantoaxial facet screw fixation, 234

Baclofen
Intrathecal baclofen down-regulates $GABA_B$ receptors in the rat substantia gelatinosa, 544
Ball-valve
Ball-valve and cyst formation. Letters, 476
Basilar artery
Deliberate basilar or vertebral artery occlusion in the treatment of intracranial aneurysms. Immediate results and long-term outcome in 201 patients, 161
Basilar impression
Neurogenic hypertension related to basilar impression. Case report, 924
Biomechanics
Biomechanical comparison of anterior Caspar plate and three-level posterior fixation techniques in a human cadaveric model, 96
Biopsy
Nondiagnostic CT-guided stereotactic biopsies in a series of 407 cases: influence of CT morphology and operator experience, 839
A spring-coil tipped cannula for anchoring cystic lesions during stereotactic aspiration. Technical note, 294
Birth injury
Birth trauma and intracranial aneurysm. Letters, 964
Neurosurgical correction of upper brachial plexus birth injuries, 197
Bone graft
Cranial bone grafts for use in posterior fixation of the cervical spine. Technical note, 286
Split-calvaria osteoplastic rotational flap for anterior fossa floor repair after tumor excision. Technical note, 782

Bone marrow depression
Severe phenytoin-induced bone marrow depression and agranulocytosis treated with human recombinant granulocyte-macrophage colony-stimulating factor. Case report, 121

Index

Brain compliance
Traumatic brain injury, hemorrhagic shock, and fluid resuscitation: effects on intracranial pressure and brain compliance, 421
Brain death
Catecholamine response to a gradual increase of intracranial pressure, 705
Dissociation of cerebral blood flow, glucose metabolism, and electrical activity in pediatric brain death. Case report, 752
Brain injury
Cerebral blood flow decreased by adrenergic stimulation of cerebral vessels in anesthetized newborn pigs with traumatic brain injury, 696
The effect of resuscitative moderate hypothermia following epidural brain compression on cerebral damage in a canine outcome model, 241
Excitatory amino acids in cerebrospinal fluid following traumatic brain injury in humans, 369
Brain mapping
Intraoperative identification of motor areas of the rhomboid fossa using direct stimulation, 393
Localization of the face area of human sensorimotor cortex by intracranial recording of somatosensory evoked potentials, 874
Magnetoencephalographic localization of a language processing cortical area adjacent to a cerebral arteriovenous malformation. Case report, 584
A new device for cortical stimulation mapping of surgically unexposed cortex. Technical note, 612
Brain neoplasm
Altered response to histamine in brain tumor vessels: the selective increase of regional cerebral blood flow in transplanted rat brain tumor, 722
Effect of pentobarbital on normal brain protection and on the response of 9L rat brain tumor to radiation therapy, 577
A frameless stereotactic approach to neurosurgical planning based on retrospective patient-image registration. Technical note, 296
Ganglioglioma presenting as a vascular lesion in a 10-year-old boy. Case report, 970
Intracranial parenchymal schwannoma. A clinicopathological and neuroimaging study of nine cases, 217
The role of photodynamic therapy in posterior fossa brain tumors. A preclinical study in a canine glioma model, 562
Surgical treatment of multiple brain metastases, 210
Therapeutic effects of local delivery of dexamethasone on experimental brain tumors and peritumoral brain edema, 716
Thymidine kinase-mediated killing of rat brain tumors, 729
Toxicity studies of retroviral-mediated gene transfer for the treatment of brain tumors, 400
Ultrasound-controlled neuronavigator-guided brain surgery, 36
Brain-stem compression
Vertebral artery section for treating arterial compression of the medulla oblongata. Case report, 116
Brain-stem tumor
Surgical management of brain-stem tumors in children: results and statistical analysis of 75 cases, 845
Brain stimulation
Release of β-endorphin and methionine-enkephalin into cerebrospinal fluid during deep brain stimulation for chronic pain. Effects of stimulation locus and site of sampling, 816

Calcitonin
Effects of dorsal rhizotomy on depressor response to spinal cord stimulation mediated by endogenous calcitonin gene-related peptide in the pithed rat, 899
Calpain
Calpain-calpastatin system of canine basilar artery in vasospasm, 537
Calpastatin
Calpain-calpastatin system of canine basilar artery in vasospasm, 537
Carboplatin
Carboplatin treatment of progressive optic pathway gliomas to delay radiotherapy, 223
Carcinogenesis
Meningiomas induced by high-dose cranial irradiation, 28
Carcinoma
Therapeutic effects of local delivery of dexamethasone on experimental brain tumors and peritumoral brain edema, 716
Cardiac index
Cardiac performance enhancement from dobutamine in patients refractory to hypervolemic therapy for cerebral vasospasm, 494
Catecholamine
Catecholamine response to a gradual increase of intracranial pressure, 705
Cauda equina
Hemodynamic activity associated with a paraganglioma of the cauda equina. Case report, 451
Cavernous sinus
Hearing loss with petrous carotid exposure. Letters, 964
Intracranial neurothekeoma (nerve-sheath myxoma). Case report, 280
Isolated extranodal intracranial sinus histiocytosis in a 5-year-old boy. Case report, 769
True anatomical compartmentalization of the cavernous sinus in a patient with bilateral cavernous dural arteriovenous fistulae. Case report, 592
Cell density
Correlation of glucose consumption and tumor cell density in astrocytomas. A stereotactic PET study, 853
Cerebral blood flow
Abnormal cerebral vasodilation in aneurysmal subarachnoid hemorrhage: use of serial ^{133}Xe cerebral blood flow measurement plus acetazolamide to assess cerebral vasospasm, 490
Altered response to histamine in brain tumor vessels: the selective increase of regional cerebral blood flow in transplanted rat brain tumor, 722
Cerebral blood flow decreased by adrenergic stimulation of cerebral vessels in anesthetized newborn pigs with traumatic brain injury, 696
Effect of mild hypothermia on uncontrollable intracranial hypertension after severe head injury, 363
Increased stroke risk predicted by compromised cerebral blood flow reactivity, 483
The use of moderate therapeutic hypothermia for patients with severe head injuries: a preliminary report, 354
Cerebral palsy
Reflex variability in selective dorsal rhizotomy, 346
Cerebral perfusion pressure
Catecholamine response to a gradual increase of intracranial pressure, 705
Cerebrospinal fluid
Excitatory amino acids in cerebrospinal fluid following traumatic brain injury in humans, 369
Limiting ischemic spinal cord injury using a free radical scavenger 21-aminosteroid and/or cerebrospinal fluid drainage, 742
Cervical spine
Biomechanical comparison of anterior Caspar plate and three-level posterior fixation techniques in a human cadaveric model, 96
Cervical neural foraminal canal stenosis: computerized tomographic myelography diagnosis, 84
Cranial bone grafts for use in posterior fixation of the cervical spine. Technical note, 286
Occipital-axis posterior wiring and fusion for atlantoaxial dislocation associated with occipitalization of the atlas. Technical note, 142

Posterior atlantoaxial facet screw fixation, 234
Chiari malformation
Spinal cord injury without radiographic abnormality and Chiari malformation, 833
Children
Dissociation of cerebral blood flow, glucose metabolism, and electrical activity in pediatric brain death. Case report, 752
Spinal cord injury without radiographic abnormality and Chiari malformation, 833
Surgical management of brain-stem tumors in children: results and statistical analysis of 75 cases, 845
Chordoma
Clival chordoma associated with pathological laughter. Case report, 428
Choroid plexus
Inflammatory pseudotumor of the choroid plexus. Case report, 939
Circulatory arrest
Cerebral oxygen metabolism during hypothermic circulatory arrest in humans, 810
Clamp
Carotid artery revascularization following Crutchfield clamp placement. Report of two cases, 779
Clivus
Clival chordoma associated with pathological laughter. Case report, 428
Cochlear nerve
Delayed hearing loss after acoustic neurinoma removal. Letters, 155
Cognitive impairment
Neurocognitive efficiency following left temporal lobectomy: standard versus limited resection, 76
Coil
Endovascular treatment of vertebral artery dissections and pseudoaneurysms, 183
Selective endovascular treatment of 71 intracranial aneurysms with platinum coils, 3
Coma
On-line monitoring of global cerebral hypoxia in acute brain injury. Relationship to intracranial hypertension, 228
Computerized tomography
Variables affecting the accuracy of stereotactic localization using computerized tomography, 667
Cone, William
Neurosurgeon as innovator: William V. Cone (1897–1959), 619
Cordotomy
Percutaneous lateral cervical cordotomy: target localization with water-soluble contrast medium, 390
Corpus callosotomy
Corpus callosotomy: a quantitative study of the extent of resection, seizure control, and neuropsychological outcome, 688
Craniopharyngioma
Brachytherapy of cystic craniopharyngiomas. Letters, 966
Craniotomy
Surgical treatment of multiple brain metastases, 210
Cyanoacrylate
Safety of embolic materials. Letters, 153
Cyst
Aspiration of colloid cyst. Letters, 965
Ball-valve and cyst formation. Letters, 476
A spring-coil tipped cannula for anchoring cystic lesions during stereotactic aspiration. Technical note, 294
Cytotoxicity
Cytotoxicity and antitumor effects of growth factor-toxin fusion proteins on human glioblastoma multiforme cells, 569

Dementia
Reversible dementia due to macroprolactinoma. Case report, 135
Dexamethasone
A comparison of the protective effect of dexamethasone to other potential prophylactic agents in a neonatal rat model of cerebral hypoxia-ischemia, 414
Therapeutic effects of local delivery of dexamethasone on experimental brain tumors and peritumoral brain edema, 716
Discectomy
Percutaneous endoscopic discectomy. Letters, 309, 967
Disc herniation
Magnetic resonance imaging documentation of coexistent traumatic locked facets of the cervical spine and disc herniation, 341
Dobutamine
Cardiac performance enhancement from dobutamine in patients refractory to hypervolemic therapy for cerebral vasospasm, 494
Drug delivery
Intrathecal baclofen down-regulates $GABA_B$ receptors in the rat substantia gelatinosa, 544
Therapeutic effects of local delivery of dexamethasone on experimental brain tumors and peritumoral brain edema, 716
Drug tolerance
Intrathecal baclofen down-regulates $GABA_B$ receptors in the rat substantia gelatinosa, 544

Edema
Therapeutic effects of local delivery of dexamethasone on experimental brain tumors and peritumoral brain edema, 716
Editorial comment
Endovascular treatment of the acutely ruptured intracranial aneurysm. Guest editorial, 1
Microsurgery and radiosurgery in brain arteriovenous malformations. Guest editorial, 647
Electrical stimulation
Dose-response study of the pathological effects of chronically applied direct current stimulation on the normal rat spinal cord, 905
Intraoperative identification of motor areas of the rhomboid fossa using direct stimulation, 393
Electrocorticography
Low-grade gliomas associated with intractable epilepsy: seizure outcome utilizing electrocorticography during tumor resection, 62
Embolization
Evaluation of pressure changes in feeding arteries during embolization of intracerebral arteriovenous malformations, 383
Safety of embolic materials. Letters, 153
Empyema
Subdural empyema of the cervical spine: clinicopathological correlates and magnetic resonance imaging. Report of three cases, 929
Encephalocele
Bilateral temporal bone encephaloceles after cranial irradiation. Case report, 596
Endarterectomy
Anterior communicating artery collateral flow protection against ischemic change during carotid endarterectomy, 379
Endorphin
Release of β-endorphin and methionine-enkephalin into cerebrospinal fluid during deep brain stimulation for chronic pain. Effects of stimulation locus and site of sampling, 816
Endoscopy
Percutaneous endoscopic discectomy. Letters, 309, 967
Video-assisted endoscopic thoracic ganglionectomy, 238
Endothelin
Mechanism of oxyhemoglobin-induced release of endothelin-1 from cultured vascular endothelial cells and smooth-muscle cells, 892

Endovascular technique
Arteriovenous fistulas of the brain and the spinal cord, 16
Endovascular treatment of the acutely ruptured intracranial aneurysm, 1
Endovascular treatment of vertebral artery dissections and pseudoaneurysms, 183
Natural history of unruptured intracranial aneurysms: a long-term follow-up study, 174
Selective endovascular treatment of 71 intracranial aneurysms with platinum coils, 3
Ependymoma
Adult intramedullary spinal cord ependymomas: the result of surgery in 38 patients, 204
Epidermal growth factor
Urinary epidermal growth factor in patients with gliomas: significance of the factor as a glial tumor marker, 408
Epidural hematoma
The effect of resuscitative moderate hypothermia following epidural brain compression on cerebral damage in a canine outcome model, 241
Epilepsy, *see* Seizure
Epilepsy surgery
A new device for cortical stimulation mapping of surgically unexposed cortex. Technical note, 612
Erratum
Gonadotropin-releasing hormone granules in hamartomas: Correction. Letter, 156
Erythropoietin
Use of recombinant human erythropoietin to avoid blood transfusion in a Jehovah's Witness requiring hemispherectomy. Case report, 600
Evoked potential
Experimental chronic compressive cervical myelopathy, 550
Localization of the face area of human sensorimotor cortex by intracranial recording of somatosensory evoked potentials, 874

Face
Localization of the face area of human sensorimotor cortex by intracranial recording of somatosensory evoked potentials, 874
Factor VIII deficiency
Cranial hemophilic pseudotumor. Case report, 936
Fenestration, arterial
Supraclinoid internal carotid artery fenestration with an associated aneurysm. Case report, 438
Fibrosis
The reduction of postlaminectomy peridural fibrosis in rabbits by a carbohydrate polymer, 89
Flunarizine
A comparison of the protective effect of dexamethasone to other potential prophylactic agents in a neonatal rat model of cerebral hypoxia-ischemia, 414
Foraminal stenosis
Cervical neural foraminal canal stenosis: computerized tomographic myelography diagnosis, 84
Foundation for International Education in Neurological Surgery
The Foundation for International Education in Neurological Surgery. Report of activities. Letter, 152
Fourth ventricle
Intraoperative identification of motor areas of the rhomboid fossa using direct stimulation, 393
Free radical
Limiting ischemic spinal cord injury using a free radical scavenger 21-aminosteroid and/or cerebrospinal fluid drainage, 742
Frontal sinus
Supraorbital craniotomy by fracture of the anterior orbital roof. Technical note, 615

Gamma-aminobutyric acid receptor
Intrathecal baclofen down-regulates $GABA_B$ receptors in the rat substantia gelatinosa, 544
Ganciclovir
An experimental model of retrovirus gene therapy for malignant brain tumors, 104
Thymidine kinase-mediated killing of rat brain tumors, 729
Toxicity studies of retroviral-mediated gene transfer for the treatment of brain tumors, 400
Ganglioglioma
Central nervous system ganglioglioma. Part 1: Pathology, 859
Central nervous system ganglioglioma. Part 2: Clinical outcome, 867
Ganglioglioma presenting as a vascular lesion in a 10-year-old boy. Case report, 920
Ganglionectomy
Video-assisted endoscopic thoracic ganglionectomy, 238
Gene therapy
An experimental model of retrovirus gene therapy for malignant brain tumors, 104
Thymidine kinase-mediated killing of rat brain tumors, 729
Gene transfer
Toxicity studies of retroviral-mediated gene transfer for the treatment of brain tumors, 400
Glioblastoma multiforme
Cytotoxicity and antitumor effects of growth factor-toxin fusion proteins on human glioblastoma multiforme cells, 569
Glioma
Carboplatin treatment of progressive optic pathway gliomas to delay radiotherapy, 223
An experimental model of retrovirus gene therapy for malignant brain tumors, 104
Low-grade gliomas associated with intractable epilepsy: seizure outcome utilizing electrocorticography during tumor resection, 62
Urinary epidermal growth factor in patients with gliomas: significance of the factor as a glial tumor marker, 408
Glucose
Correlation of glucose consumption and tumor cell density in astrocytomas. A stereotactic PET study, 853
Glutamate
Attenuation of potassium cyanide-mediated neuronal cell death by adenosine, 111
Excitatory amino acids in cerebrospinal fluid following traumatic brain injury in humans, 369
Gonadotropin-releasing hormone
Gonadotropin-releasing hormone granules in hamartomas: Correction. Letter, 156
Grading system
Grading venous restrictive disease in patients with dural arteriovenous fistulas of the transverse/sigmoid sinus, 11
Granulomatous disease
Idiopathic hypertrophic cranial pachymeningitis. Report of three cases, 270
Primary (granulomatous) angiitis of the central nervous system with multiple aneurysms of spinal arteries. Case report, 603
Growth factor
Cytotoxicity and antitumor effects of growth factor-toxin fusion proteins on human glioblastoma multiforme cells, 569
Growth hormone
Results of surgical treatment for growth hormone-secreting pituitary adenomas, 70

Head injury, *see also* Brain injury
Effect of mild hypothermia on uncontrollable intracranial hypertension after severe head injury, 363
Head injury and shock. Letters, 637
Near-infrared spectroscopic localization of intracranial hematomas, 43

On-line monitoring of global cerebral hypoxia in acute brain injury. Relationship to intracranial hypertension, 228
Traumatic brain injury, hemorrhagic shock, and fluid resuscitation: effects on intracranial pressure and brain compliance, 421
The use of moderate therapeutic hypothermia for patients with severe head injuries: a preliminary report, 354
Health-care reform
The yin and yang of neurological surgery. The 1993 AANS presidential address, 807
Hearing loss
Delayed hearing loss after acoustic neurinoma removal. Letters, 155
Hearing loss with petrous carotid exposure. Letters, 964
Intracanalicular acoustic neuroma: early surgery for preservation of hearing, 515
Hematoma, *see also* various types
Angiographic demonstration of a spinal epidural arteriovenous malformation. Case report, 119
Near-infrared spectroscopic localization of intracranial hematomas, 43
Hematopoiesis
Progressive paraparesis due to thoracic extramedullary hematopoiesis in myelofibrosis. Case report, 125
Hemicorticectomy
Cerebral hemicorticectomy for epilepsy. Letters, 473
Hemin
Hemin: levels in experimental subarachnoid hematoma and effects on dissociated vascular smooth-muscle cells, 252
Hemispherectomy
Use of recombinant human erythropoietin to avoid blood transfusion in a Jehovah's Witness requiring hemispherectomy. Case report, 600
Hemodynamics
Evaluation of pressure changes in feeding arteries during embolization of intracerebral arteriovenous malformations, 383
Hemophilia
Cranial hemophilic pseudotumor. Case report, 936
Hemosiderin
Superficial siderosis of the central nervous system: magnetic resonance imaging and pathological correlation. Case report, 756
Henry II of France
Death of Henry II of France. Letters, 311
Herpes simplex virus
An experimental model of retrovirus gene therapy for malignant brain tumors, 104
Thymidine kinase-mediated killing of rat brain tumors, 729
Heterotopia
Pathology of temporal lobectomy for refractory seizures in children. Review of 20 cases including some unique malformative lesions, 53
Hippocampus
Microsurgical anatomy of the hippocampal arteries, 256
Histamine
Altered response to histamine in brain tumor vessels: the selective increase of regional cerebral blood flow in transplanted rat brain tumor, 722
Histiocytosis
Isolated extranodal intracranial sinus histiocytosis in a 5-year-old boy. Case report, 769
Historical vignette
Death of Henry II of France. Letters, 311
Development of neurosurgery in Southern California and the Los Angeles County/University of Southern California Medical Center, 145
The Massachusetts General Hospital. Early history and neurosurgery to 1939, 948
The Massachusetts General Hospital. The sequel, 958
Neurosurgeon as innovator: William V. Cone (1897–1959), 619
The Vanderbilt University neurosurgical heritage, 464
Human immunodeficiency virus
Spinal epidural leiomyoma occurring in an HIV-infected man. Case report, 442
Hyperglycemia
Plasma glucose levels and outcome after aneurysmal subarachnoid hemorrhage, 885
Hyperhidrosis
Video-assisted endoscopic thoracic ganglionectomy, 238
Hypertension
The effect of resuscitative moderate hypothermia following epidural brain compression on cerebral damage in a canine outcome model, 241
Neurogenic hypertension related to basilar impression. Case report, 924
Hypervolemic therapy
Complications of hypervolemic therapy. Letters, 798
Hypervolemic therapy and vasospasm. Letters, 638
Hypoplasia
Atlas hypoplasia as a cause of high cervical myelopathy. Case report, 917
Hypothermia
Cerebral oxygen metabolism during hypothermic circulatory arrest in humans, 810
Effect of mild hypothermia on uncontrollable intracranial hypertension after severe head injury, 363
Epidural perfusion cooling protection against protracted spinal cord ischemia in rabbits, 736
The use of moderate therapeutic hypothermia for patients with severe head injuries: a preliminary report, 354
Hypoxia
Cerebral oxygen metabolism during hypothermic circulatory arrest in humans, 810
A comparison of the protective effect of dexamethasone to other potential prophylactic agents in a neonatal rat model of cerebral hypoxia-ischemia, 414
On-line monitoring of global cerebral hypoxia in acute brain injury. Relationship to intracranial hypertension, 228

Immunohistochemistry
Failure of FK-506, a new immunosuppressant, to prevent cerebral vasospasm in a canine two-hemorrhage model, 710
Infant
Neurosurgical correction of upper brachial plexus birth injuries, 197
Infarction
Spinal cord infarction associated with primary antiphospholipid syndrome in a young child. Case report, 446
Instrumentation, *see also* Spine instrumentation
A frameless stereotactic approach to neurosurgical planning based on retrospective patient-image registration. Technical note, 296
A new brain retractor. Technical note, 462
New transducers for intraoperative spinal sonography. Technical note, 787
Percutaneous lateral cervical cordotomy: target localization with water-soluble contrast medium, 390
A spring-coil tipped cannula for anchoring cystic lesions during stereotactic aspiration. Technical note, 294
Temporal muscle microfixation in pterional craniotomies. Technical note, 946
Ultrasound-controlled neuronavigator-guided brain surgery, 36
Insula
Surgical treatment of partial epilepsy arising from the insular cortex. Report of two cases, 266
Internal carotid artery
Cervical-to-petrous internal carotid artery bypass procedure. Technical note, 138
Intervertebral disc
Magnetic resonance imaging documentation of coexistent trau-

matic locked facets of the cervical spine and disc herniation, 341
Intracranial pressure
Catecholamine response to a gradual increase of intracranial pressure, 705
Effect of mild hypothermia on uncontrollable intracranial hypertension after severe head injury, 363
On-line monitoring of global cerebral hypoxia in acute brain injury. Relationship to intracranial hypertension, 228
Traumatic brain injury, hemorrhagic shock, and fluid resuscitation: effects on intracranial pressure and brain compliance, 421
The use of moderate therapeutic hypothermia for patients with severe head injuries: a preliminary report, 354
Intramedullary tumor
Adult intramedullary spinal cord ependymomas: the result of surgery in 38 patients, 204
Ischemia
Anterior communicating artery collateral flow protection against ischemic change during carotid endarterectomy, 379
Attenuation of potassium cyanide-mediated neuronal cell death by adenosine, 111
A comparison of the protective effect of dexamethasone to other potential prophylactic agents in a neonatal rat model of cerebral hypoxia-ischemia, 414
Complications of hypervolemic therapy. Letters, 798
Deliberate basilar or vertebral artery occlusion in the treatment of intracranial aneurysms. Immediate results and long-term outcome in 201 patients, 161
Doppler ultrasound prediction of delayed ischemia. Letters, 474
The effect of resuscitative moderate hypothermia following epidural brain compression on cerebral damage in a canine outcome model, 241
Epidural perfusion cooling protection against protracted spinal cord ischemia in rabbits, 736
Plasma glucose levels and outcome after aneurysmal subarachnoid hemorrhage, 885

Jehovah's Witness
Use of recombinant human erythropoietin to avoid blood transfusion in a Jehovah's Witness requiring hemispherectomy. Case report, 600

Ketamine
Effect of pentobarbital on normal brain protection and on the response of 9L rat brain tumor to radiation therapy, 577

Laminectomy
The reduction of postlaminectomy peridural fibrosis in rabbits by a carbohydrate polymer, 89
Language
Magnetoencephalographic localization of a language processing cortical area adjacent to a cerebral arteriovenous malformation. Case report, 584
A new device for cortical stimulation mapping of surgically unexposed cortex. Technical note, 612
Leiomyoma
Spinal epidural leiomyoma occurring in an HIV-infected man. Case report, 442
Leukemia
Megakaryoblastic leukemia presenting as a temporal bone granulocytic sarcoma. Case report, 128
Leukopenia
Severe phenytoin-induced bone marrow depression and agranulocytosis treated with human recombinant granulocyte-macrophage colony-stimulating factor. Case report, 121
Locked facet
Magnetic resonance imaging documentation of coexistent traumatic locked facets of the cervical spine and disc herniation, 341
Lumbar disc
Percutaneous endoscopic discectomy. Letters, 309
Lumbar spine
To fuse or not to fuse? Letters, 153
Lupus
Spinal cord infarction associated with primary antiphospholipid syndrome in a young child. Case report, 446
Lymphoma
Primary (granulomatous) angiitis of the central nervous system with multiple aneurysms of spinal arteries. Case report, 603

Magnetic resonance angiography
Magnetic resonance angiography: a three-dimensional database for assessing arteriovenous malformations. Technical note, 289
Magnetic resonance imaging
A frameless stereotactic approach to neurosurgical planning based on retrospective patient-image registration. Technical note, 296
Magnetic resonance imaging surveillance. Letters, 474
Superficial siderosis of the central nervous system: magnetic resonance imaging and pathological correlation. Case report, 756
Thoracic mobile neurinoma. Case report, 277
Magnetoencephalography
Magnetoencephalographic localization of a language processing cortical area adjacent to a cerebral arteriovenous malformation. Case report, 584
Massachusetts General Hospital
The Massachusetts General Hospital. Early history and neurosurgery to 1939, 948
The Massachusetts General Hospital. The sequel, 958
Mastoidectomy
Cosmetic mastoidectomy for the combined supra/infratentorial transtemporal approach. Technical note, 460
Medulla
Neurogenic hypertension related to basilar impression. Case report, 924
Melanoma
Stereotactic radiosurgery for cerebral metastatic melanoma, 661
Meningioma
Androgen and progesterone receptors in meningiomas. Letters, 635
Meningiomas induced by high-dose cranial irradiation, 28
The petrosal approach with hearing preservation, 508
Meningocele
Localized hypertrophic mononeuropathy involving spinal roots and associated with sacral meningocele. Case report, 774
Metastasis
Stereotactic radiosurgery for cerebral metastatic melanoma, 661
Surgical treatment of multiple brain metastases, 210
Methionine-enkephalin
Release of β-endorphin and methionine-enkephalin into cerebrospinal fluid during deep brain stimulation for chronic pain. Effects of stimulation locus and site of sampling, 816
Methylprednisolone
Effects of timing of methylprednisolone or naloxone administration on recovery of segmental and long-tract neurological function in NASCIS 2, 500
Microsurgery
Microsurgery and radiosurgery in brain arteriovenous malformations. Guest editorial, 647
Microsurgery and radiosurgery in small AVM's. Letter, 795

Microsurgery for 67 intracranial arteriovenous malformations less than 3 cm in diameter, 653
Microsurgical decompression
Cervical cord compression by the anomalous vertebral artery presenting with neuralgic pain. Case report, 283
Microvascular sling decompression for trigeminal neuralgia secondary to ectatic vertebrobasilar compression. Case report, 943
Partial sensory trigeminal rhizotomy at the pons for trigeminal neuralgia, 680
Microvasculature
Microsurgical anatomy of the hippocampal arteries, 256
Mitotic activity
Increased mitotic activity as a negative prognostic indicator in pleomorphic xanthoastrocytoma. Case report, 761
Motor cortex
Localization of the face area of human sensorimotor cortex by intracranial recording of somatosensory evoked potentials, 874
A new device for cortical stimulation mapping of surgically unexposed cortex. Technical note, 612
Moyamoya disease
Cerebral revascularization using omental transplantation for childhood moyamoya disease, 192
Moyamoya phenomenon after radiation for optic glioma, 32
Myelofibrosis
Progressive paraparesis due to thoracic extramedullary hematopoiesis in myelofibrosis. Case report, 125
Myelography
Thoracic mobile neurinoma. Case report, 277
Myelopathy
Atlas hypoplasia as a cause of high cervical myelopathy. Case report, 917
Experimental chronic compressive cervical myelopathy, 550
Myxoma
Intracranial neurothekeoma (nerve-sheath myxoma). Case report, 280

National Acute Spinal Cord Injury Study
Effects of timing of methylprednisolone or naloxone administration on recovery of segmental and long-tract neurological function in NASCIS 2, 500
Natural history
Natural history of unruptured intracranial aneurysms: a long-term follow-up study, 174
Nerve action potential
Posterior subscapular approach to the brachial plexus. Report of 102 patients, 319
Nerve-sheath tumor
Spinal malignant nerve-sheath tumor or cellular schwannoma? A striking difference in prognosis, 528
Neuralgia
Cervical cord compression by the anomalous vertebral artery presenting with neuralgic pain. Case report, 283
Neurilemoma
Intracranial parenchymal schwannoma. A clinicopathological and neuroimaging study of nine cases, 217
Neurinoma
Delayed hearing loss after acoustic neurinoma removal. Letters, 155
Thoracic mobile neurinoma. Case report, 277
Neurodiagnostic imaging
Unreliability of contemporary neurodiagnostic imaging in evaluating suspected adult supratentorial (low-grade) astrocytoma, 533
Variables affecting the accuracy of stereotactic localization using computerized tomography, 667
Neurofibromatosis
Moyamoya phenomenon after radiation for optic glioma, 32
Neuroma
Centrocentral anastomosis of the proximal nerve stump in the treatment of painful amputation neuromas of major nerves, 331
Intracanalicular acoustic neuroma: early surgery for preservation of hearing, 515
Neuronal loss
Neuronal protection against excitotoxicity. Letters, 638
Neuropsychological testing
Corpus callosotomy: a quantitative study of the extent of resection, seizure control, and neuropsychological outcome, 688
Neurosurgical education
The Foundation for International Education in Neurological Surgery. Report of activities. Letter, 152
Neurosurgical history, *see also* Historical vignette
Development of neurosurgery in Southern California and the Los Angeles County/University of Southern California Medical Center, 145
The Massachusetts General Hospital. Early history and neurosurgery to 1939, 948
The Massachusetts General Hospital. The sequel, 958
Neurosurgeon as innovator: William V. Cone (1897–1959), 619
Neurothekeoma
Intracranial neurothekeoma (nerve-sheath myxoma). Case report, 280
Neurotoxicity
Neuronal protection against excitotoxicity. Letters, 638
Neurotransmitter
Altered response to histamine in brain tumor vessels: the selective increase of regional cerebral blood flow in transplanted rat brain tumor, 722
Nimodipine
A comparison of the protective effect of dexamethasone to other potential prophylactic agents in a neonatal rat model of cerebral hypoxia-ischemia, 414

Occlusive disease
Increased stroke risk predicted by compromised cerebral blood flow reactivity, 483
Olfaction
Preservation of olfaction in anterior craniofacial approaches, 48
Omental transplantation
Cerebral revascularization using omental transplantation for childhood moyamoya disease, 192
Operative technique
Cranial bone grafts for use in posterior fixation of the cervical spine. Technical note, 286
Percutaneous lateral cervical cordotomy: target localization with water-soluble contrast medium, 390
The sequential hook insertion technique for universal spine instrumentation application. Technical note, 608
Split-calvaria osteoplastic rotational flap for anterior fossa floor repair after tumor excision. Technical note, 782
Supraorbital craniotomy by fracture of the anterior orbital roof. Technical note, 615
Temporal muscle microfixation in pterional craniotomies. Technical note, 946
Ophthalmic vein
True anatomical compartmentalization of the cavernous sinus in a patient with bilateral cavernous dural arteriovenous fistulae. Case report, 592
Optic glioma
Moyamoya phenomenon after radiation for optic glioma, 32
Optic pathway
Carboplatin treatment of progressive optic pathway gliomas to delay radiotherapy, 223
Orbit
Supraorbital craniotomy by fracture of the anterior orbital roof.

Technical note, 615
Osler, William
The Vanderbilt University neurosurgical heritage, 464
Osteoma
Intracerebral polyposis or osteoma? Letters, 801
Osteotomy
Preservation of olfaction in anterior craniofacial approaches, 48
Outcome
Central nervous system ganglioglioma. Part 2: Clinical outcome, 867
Oxyhemoglobin
Mechanism of oxyhemoglobin-induced release of endothelin-1 from cultured vascular endothelial cells and smooth-muscle cells, 892

Pachymeningitis
Idiopathic hypertrophic cranial pachymeningitis. Report of three cases, 270
Pain
Centrocentral anastomosis of the proximal nerve stump in the treatment of painful amputation neuromas of major nerves, 331
Release of β-endorphin and methionine-enkephalin into cerebrospinal fluid during deep brain stimulation for chronic pain. Effects of stimulation locus and site of sampling, 816
Papaverine
Intra-arterial papaverine for vasospasm. Letters, 797
Paraganglioma
Hemodynamic activity associated with a paraganglioma of the cauda equina. Case report, 451
Paraparesis
Progressive paraparesis due to thoracic extramedullary hematopoiesis in myelofibrosis. Case report, 125
Penfield, Wilder
Neurosurgeon as innovator: William V. Cone (1897–1959), 619
Pentobarbital
Effect of pentobarbital on normal brain protection and on the response of 9L rat brain tumor to radiation therapy, 577
Perineurium
Localized hypertrophic mononeuropathy involving spinal roots and associated with sacral meningocele. Case report, 774
Petroclival lesion
The petrosal approach with hearing preservation, 508
Petrous pyramid
Drilling the posterior meatal lip. Letters, 802
Phenytoin
Severe phenytoin-induced bone marrow depression and agranulocytosis treated with human recombinant granulocyte-macrophage colony-stimulating factor. Case report, 121
Photodynamic therapy
The role of photodynamic therapy in posterior fossa brain tumors. A preclinical study in a canine glioma model, 562
Polyposis
Intracerebral polyposis or osteoma? Letters, 801
Positron emission tomography
Correlation of glucose consumption and tumor cell density in astrocytomas. A stereotactic PET study, 853
Dissociation of cerebral blood flow, glucose metabolism, and electrical activity in pediatric brain death. Case report, 752
Posterior cerebral artery
Microsurgical anatomy of the hippocampal arteries, 256
Posterior fossa
The role of photodynamic therapy in posterior fossa brain tumors. A preclinical study in a canine glioma model, 562
Potassium chloride
Calpain-calpastatin system of canine basilar artery in vasospasm, 537
Presidential address
The yin and yang of neurological surgery. The 1993 AANS presidential address, 807
Probe
New transducers for intraoperative spinal sonography. Technical note, 787
Progesterone
Androgen and progesterone receptors in meningiomas. Letters, 635
Prognosis
Surgical management of brain-stem tumors in children: results and statistical analysis of 75 cases, 845
Prolactinoma
Reversible dementia due to macroprolactinoma. Case report, 135
Pseudotumor
Cranial hemophilic pseudotumor. Case report, 936
Inflammatory pseudotumor of the choroid plexus. Case report, 939
Pterional approach
Temporal muscle microfixation in pterional craniotomies. Technical note, 946

Radiation-induced lesion
Bilateral temporal bone encephaloceles after cranial irradiation. Case report, 596
Meningiomas induced by high-dose cranial irradiation, 28
Moyamoya phenomenon after radiation for optic glioma, 32
Radiation therapy
Effect of pentobarbital on normal brain protection and on the response of 9L rat brain tumor to radiation therapy, 577
Radiculopathy
Cervical neural foraminal canal stenosis: computerized tomographic myelography diagnosis, 84
Radioimmunoassay
Mechanism of oxyhemoglobin-induced release of endothelin-1 from cultured vascular endothelial cells and smooth-muscle cells, 892
Radiosurgery
Microsurgery and radiosurgery in brain arteriovenous malformations. Guest editorial, 647
Microsurgery and radiosurgery in small AVM's. Letter, 795
Microsurgery for 67 intracranial arteriovenous malformations less than 3 cm in diameter, 653
Stereotactic radiosurgery for cerebral metastatic melanoma, 661
Rapid eye movement
Clival chordoma associated with pathological laughter. Case report, 428
Reconstructive surgery
Split-calvaria osteoplastic rotational flap for anterior fossa floor repair after tumor excision. Technical note, 782
Reflex
Reflex variability in selective dorsal rhizotomy, 346
Reflex sympathetic dystrophy
Video-assisted endoscopic thoracic ganglionectomy, 238
Resuscitation
The effect of resuscitative moderate hypothermia following epidural brain compression on cerebral damage in a canine outcome model, 241
Traumatic brain injury, hemorrhagic shock, and fluid resuscitation: effects on intracranial pressure and brain compliance, 421
Retractor
A new brain retractor. Technical note, 462
Retrovirus
An experimental model of retrovirus gene therapy for malignant brain tumors, 104
Revascularization, *see also* Anastomosis, vascular
Carotid artery revascularization following Crutchfield clamp placement. Report of two cases, 779
Cerebral revascularization using omental transplantation for

childhood moyamoya disease, 192
Rhizotomy
Effects of dorsal rhizotomy on depressor response to spinal cord stimulation mediated by endogenous calcitonin gene-related peptide in the pithed rat, 899
Partial sensory trigeminal rhizotomy at the pons for trigeminal neuralgia, 680
Reflex variability in selective dorsal rhizotomy, 346

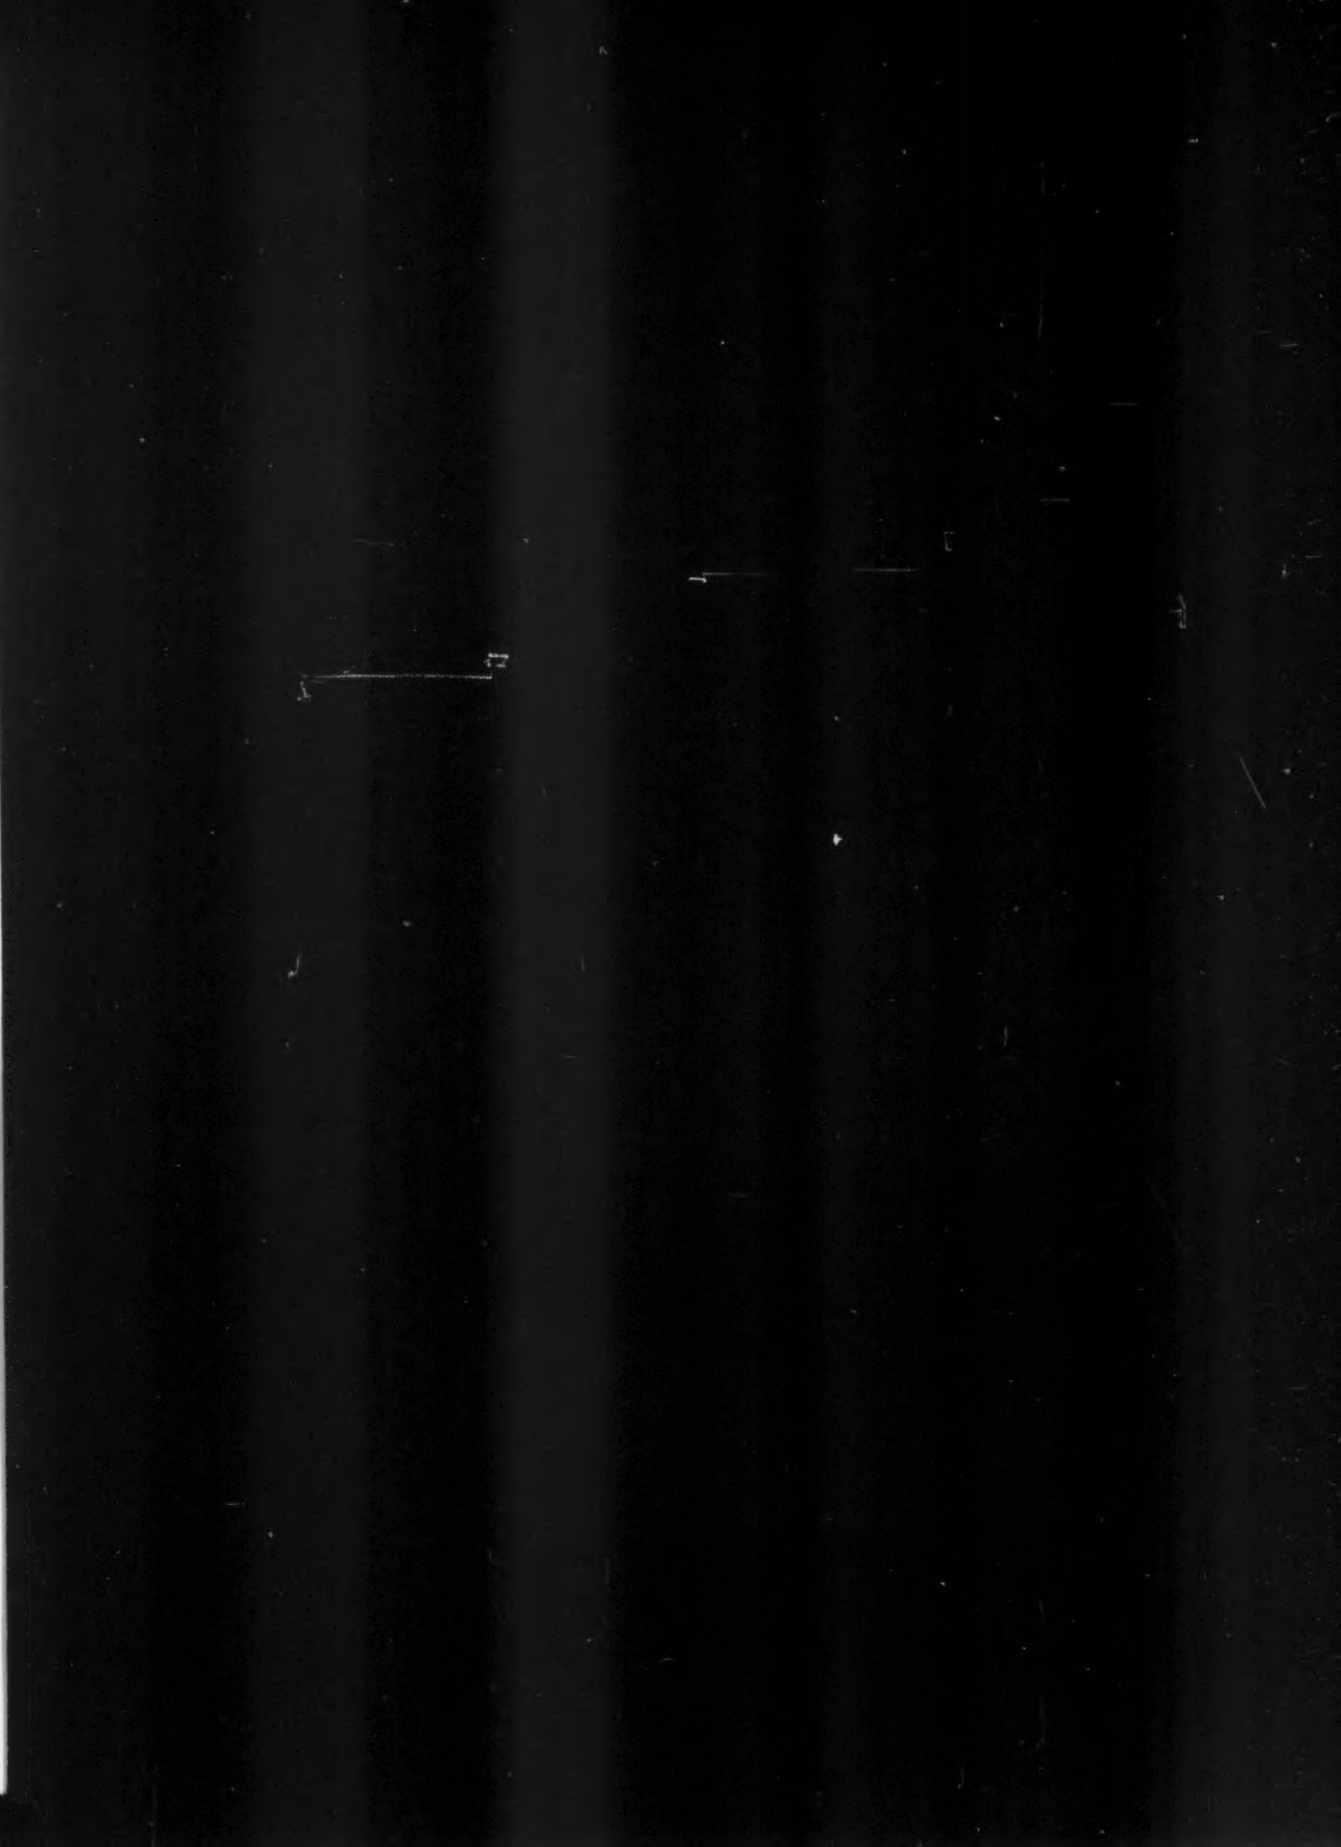
Sacrum
Localized hypertrophic mononeuropathy involving spinal roots and associated with sacral meningocele. Case report, 774
Sarcoidosis
Idiopathic hypertrophic cranial pachymeningitis. Report of three cases, 270
Sarcoma
Megakaryoblastic leukemia presenting as a temporal bone granulocytic sarcoma. Case report, 128
Schwannoma
Intracranial parenchymal schwannoma. A clinicopathological and neuroimaging study of nine cases, 217
Spinal malignant nerve-sheath tumor or cellular schwannoma? A striking difference in prognosis, 528
Seizure
Cerebral hemicorticectomy for epilepsy. Letters, 473
Corpus callosotomy: a quantitative study of the extent of resection, seizure control, and neuropsychological outcome, 688
Low-grade gliomas associated with intractable epilepsy: seizure outcome utilizing electrocorticography during tumor resection, 62
Neurocognitive efficiency following left temporal lobectomy: standard versus limited resection, 76
Pathology of temporal lobectomy for refractory seizures in children. Review of 20 cases including some unique malformative lesions, 53
Surgical treatment of partial epilepsy arising from the insular cortex. Report of two cases, 266
Vagus stimulator for seizures. Letters, 636
Serotonin
Calpain-calpastatin system of canine basilar artery in vasospasm, 537
Shock
Head injury and shock. Letters, 637
Sigmoid sinus
Grading venous restrictive disease in patients with dural arteriovenous fistulas of the transverse/sigmoid sinus, 11
Skull
Split-calvaria osteoplastic rotational flap for anterior fossa floor repair after tumor excision. Technical note, 782
Smooth-muscle cell
Hemin: levels in experimental subarachnoid hematoma and effects on dissociated vascular smooth-muscle cells, 252
Mechanism of oxyhemoglobin-induced release of endothelin-1 from cultured vascular endothelial cells and smooth-muscle cells, 892
Somatosensory cortex
Localization of the face area of human sensorimotor cortex by intracranial recording of somatosensory evoked potentials, 874
Spasticity
Reflex variability in selective dorsal rhizotomy, 346
Spectroscopy
Near-infrared spectroscopic localization of intracranial hematomas, 43
Spinal canal
Cervical neural foraminal canal stenosis: computerized tomographic myelography diagnosis, 84
Spinal cord compression
Cervical cord compression by the anomalous vertebral artery presenting with neuralgic pain. Case report, 283
Experimental chronic compressive cervical myelopathy, 550
Spinal cord infarction
Spinal cord infarction associated with primary antiphospholipid syndrome in a young child. Case report, 446
Spinal cord injury
Cranial bone grafts for use in posterior fixation of the cervical spine. Technical note, 286
Dose-response study of the pathological effects of chronically applied direct current stimulation on the normal rat spinal cord, 905
Effects of timing of methylprednisolone or naloxone administration on recovery of segmental and long-tract neurological function in NASCIS 2, 500
Limiting ischemic spinal cord injury using a free radical scavenger 21-aminosteroid and/or cerebrospinal fluid drainage, 742
Spinal cord injury without radiographic abnormality and Chiari malformation, 833
Spinal cord ischemia
Epidural perfusion cooling protection against protracted spinal cord ischemia in rabbits, 736
Limiting ischemic spinal cord injury using a free radical scavenger 21-aminosteroid and/or cerebrospinal fluid drainage, 742
Spinal cord neoplasm
Adult intramedullary spinal cord ependymomas: the result of surgery in 38 patients, 204
New transducers for intraoperative spinal sonography. Technical note, 787
Spinal cord stimulation
Effects of dorsal rhizotomy on depressor response to spinal cord stimulation mediated by endogenous calcitonin gene-related peptide in the pithed rat, 899
Spinal fracture
Magnetic resonance imaging documentation of coexistent traumatic locked facets of the cervical spine and disc herniation, 341
Short-segment compression instrumentation for selected thoracic and lumbar spine fractures: the short-rod/two-claw technique, 335
Spinal fusion
Biomechanical comparison of anterior Caspar plate and three-level posterior fixation techniques in a human cadaveric model, 96
Cranial bone grafts for use in posterior fixation of the cervical spine. Technical note, 286
Occipital-axis posterior wiring and fusion for atlantoaxial dislocation associated with occipitalization of the atlas. Technical note, 142
Posterior atlantoaxial facet screw fixation, 234
Short-segment compression instrumentation for selected thoracic and lumbar spine fractures: the short-rod/two-claw technique, 335
To fuse or not to fuse? Letters, 153
Spinal lesion
Subdural empyema of the cervical spine: clinicopathological correlates and magnetic resonance imaging. Report of three cases, 929
Spinal neoplasm
Pigmented villonodular synovitis of the spine. Case report, 456
Spinal epidural leiomyoma occurring in an HIV-infected man. Case report, 442
Spinal malignant nerve-sheath tumor or cellular schwannoma? A striking difference in prognosis, 528
Spinal nerve root
Posterior subscapular approach to the brachial plexus. Report of 102 patients, 319
Spinal peridural fibrosis
The reduction of postlaminectomy peridural fibrosis in rabbits by a carbohydrate polymer, 89
Spine instrumentation
Biomechanical comparison of anterior Caspar plate and three-

Index

level posterior fixation techniques in a human cadaveric model, 96
The sequential hook insertion technique for universal spine instrumentation application. Technical note, 608
Short-segment compression instrumentation for selected thoracic and lumbar spine fractures: the short-rod/two-claw technique, 335
Spine stabilization
The sequential hook insertion technique for universal spine instrumentation application. Technical note, 608
Spondylosis
Experimental chronic compressive cervical myelopathy, 550
Stereotactic surgery
Unreliability of contemporary neurodiagnostic imaging in evaluating suspected adult supratentorial (low-grade) astrocytoma, 533
Stereotaxis
A frameless stereotactic approach to neurosurgical planning based on retrospective patient-image registration. Technical note, 296
Nondiagnostic CT-guided stereotactic biopsies in a series of 407 cases: influence of CT morphology and operator experience, 839
Ultrasound-controlled neuronavigator-guided brain surgery, 36
Variables affecting the accuracy of stereotactic localization using computerized tomography, 667
Steroid
Isolated extranodal intracranial sinus histiocytosis in a 5-year-old boy. Case report, 769
Striatal neuron
Neuronal protection against excitotoxicity. Letters, 638
Stroke
Increased stroke risk predicted by compromised cerebral blood flow reactivity, 483
Subarachnoid hemorrhage
Abnormal cerebral vasodilation in aneurysmal subarachnoid hemorrhage: use of serial ^{133}Xe cerebral blood flow measurement plus acetazolamide to assess cerebral vasospasm, 490
Cardiac performance enhancement from dobutamine in patients refractory to hypervolemic therapy for cerebral vasospasm, 494
A clinical study of the relationship of timing to outcome of surgery for ruptured cerebral aneurysms. A retrospective analysis of 1622 cases, 373
Complications of hypervolemic therapy. Letters, 798
Intracranial vertebral arteriovenous fistula. Case report, 589
Natural history of unruptured intracranial aneurysms: a long-term follow-up study, 174
Plasma glucose levels and outcome after aneurysmal subarachnoid hemorrhage, 885
Superficial siderosis of the central nervous system: magnetic resonance imaging and pathological correlation. Case report, 756
Surgery for angiographically occult cerebral aneurysms, 674
Subdural hematoma
Severe phenytoin-induced bone marrow depression and agranulocytosis treated with human recombinant granulocyte-macrophage colony-stimulating factor. Case report, 121
Surgical approach, *see also* Operative technique *and* specific surgical approaches
Cosmetic mastoidectomy for the combined supra/infratentorial transtemporal approach. Technical note, 460
Drilling the posterior meatal lip. Letters, 802
Hearing loss with petrous carotid exposure. Letters, 964
The petrosal approach with hearing preservation, 508
Posterior subscapular approach to the brachial plexus. Report of 102 patients, 319
Preservation of olfaction in anterior craniofacial approaches, 48
Sympathetic nervous system
Cerebral blood flow decreased by adrenergic stimulation of cerebral vessels in anesthetized newborn pigs with traumatic brain injury, 696
Synaptophysin
Central nervous system ganglioglioma. Part 1: Pathology, 859
Syringomyelia
Spontaneous drainage of syringomyelia. Report of two cases, 132

Temporal bone
Megakaryoblastic leukemia presenting as a temporal bone granulocytic sarcoma. Case report, 128
Pathology of temporal lobectomy for refractory seizures in children. Review of 20 cases including some unique malformative lesions, 53
Temporal lobectomy
Neurocognitive efficiency following left temporal lobectomy: standard versus limited resection, 76
Temporal muscle
Temporal muscle microfixation in pterional craniotomies. Technical note, 946
Terminology
Precise terminology in scientific communications. Letter, 795
Three-dimensional imaging
Ultrasound-controlled neuronavigator-guided brain surgery, 36
Thrombosis
Spontaneous thrombosis of posterior cerebral artery aneurysm with angiographic reappearance. Case report, 434
Thymidine kinase
An experimental model of retrovirus gene therapy for malignant brain tumors, 104
Thymidine kinase-mediated killing of rat brain tumors, 729
Thyrotropin-stimulating hormone
Thyrotropin-producing pituitary adenomas, 521
Timing of surgery
A clinical study of the relationship of timing to outcome of surgery for ruptured cerebral aneurysms. A retrospective analysis of 1622 cases, 373
Intracanalicular acoustic neuroma: early surgery for preservation of hearing, 515
Toxicity
Dose-response study of the pathological effects of chronically applied direct current stimulation on the normal rat spinal cord, 905
Toxicity studies of retroviral-mediated gene transfer for the treatment of brain tumors, 400
Transbasal approach
Preservation of olfaction in anterior craniofacial approaches, 48
Transducer
New transducers for intraoperative spinal sonography. Technical note, 787
Transsphenoidal surgery
Results of surgical treatment for growth hormone-secreting pituitary adenomas, 70
Thyrotropin-producing pituitary adenomas, 521
Transverse sinus
Grading venous restrictive disease in patients with dural arteriovenous fistulas of the transverse/sigmoid sinus, 11
Trigeminal neuralgia
Microvascular sling decompression for trigeminal neuralgia secondary to ectatic vertebrobasilar compression. Case report, 943
Partial sensory trigeminal rhizotomy at the pons for trigeminal neuralgia, 680
Tuberous sclerosis
Pathology of temporal lobectomy for refractory seizures in children. Review of 20 cases including some unique malformative lesions, 53
Tumor, *see* specific tumors *and* sites
Tumor marker
Urinary epidermal growth factor in patients with gliomas: significance of the factor as a glial tumor marker, 408

Ultrasound
Doppler ultrasound prediction of delayed ischemia. Letters, 474
New transducers for intraoperative spinal sonography. Technical note, 787
Ultrasound-controlled neuronavigator-guided brain surgery, 36
University of Southern California School of Medicine
Development of neurosurgery in Southern California and the Los Angeles County/University of Southern California Medical Center, 145
Unruptured aneurysm
Natural history of unruptured intracranial aneurysms: a long-term follow-up study, 174
Unruptured aneurysms: Should all be obliterated at once? Letters, 308

Vagus nerve
Vagus stimulator for seizures. Letters, 636
Vanderbilt University
The Vanderbilt University neurosurgical heritage, 464
Vascular decompression
Vertebral artery section for treating arterial compression of the medulla oblongata. Case report, 116
Vascular occlusion
Role of angiography following aneurysm surgery, 826
Vasodilation
Abnormal cerebral vasodilation in aneurysmal subarachnoid hemorrhage: use of serial ^{133}Xe cerebral blood flow measurement plus acetazolamide to assess cerebral vasospasm, 490
Vasospasm
Abnormal cerebral vasodilation in aneurysmal subarachnoid hemorrhage: use of serial ^{133}Xe cerebral blood flow measurement plus acetazolamide to assess cerebral vasospasm, 490
Calpain-calpastatin system of canine basilar artery in vasospasm, 537
Cardiac performance enhancement from dobutamine in patients refractory to hypervolemic therapy for cerebral vasospasm, 494
Failure of FK-506, a new immunosuppressant, to prevent cerebral vasospasm in a canine two-hemorrhage model, 710
Hemin: levels in experimental subarachnoid hematoma and effects on dissociated vascular smooth-muscle cells, 252
Hypervolemic therapy and vasospasm. Letters, 638
Intra-arterial papaverine for vasospasm. Letters, 797
Venous hypertension
Arteriovenous fistulas of the brain and the spinal cord, 16
Ventricular tumor
Inflammatory pseudotumor of the choroid plexus. Case report, 939
Vertebral artery
Cervical cord compression by the anomalous vertebral artery presenting with neuralgic pain. Case report, 283
Endovascular treatment of vertebral artery dissections and pseudoaneurysms, 183
Intracranial vertebral arteriovenous fistula. Case report, 589
Microvascular sling decompression for trigeminal neuralgia secondary to ectatic vertebrobasilar compression. Case report, 943
Vertebral artery section for treating arterial compression of the medulla oblongata. Case report, 116
Villonodular synovitis
Pigmented villonodular synovitis of the spine. Case report, 456


Xanthoastrocytoma
Increased mitotic activity as a negative prognostic indicator in pleomorphic xanthoastrocytoma. Case report, 761
